

## BONEPLANT

### DR. EDWIN ROSTAMI

- “Imperial Implant Center” LLC, Yerevan, Armenia
- Supervise and coordinate daily activities of the clinical and administrative staff
- Providing oral and maxillofacial surgical treatment.

Reducing surgical trauma and duration of surgery during the application of various methods of bone grafting is a key issue. By applying Boneplant (combination of bone grafting material and implant), we propose making one-stage implantation, as a more effective and less traumatic bone graft and implantation.
